

Downloading CET License Buyer

Supported operating systems are Windows 2000 or XP. You need administrative rights (Power User) to install CET License Buyer on your computer.

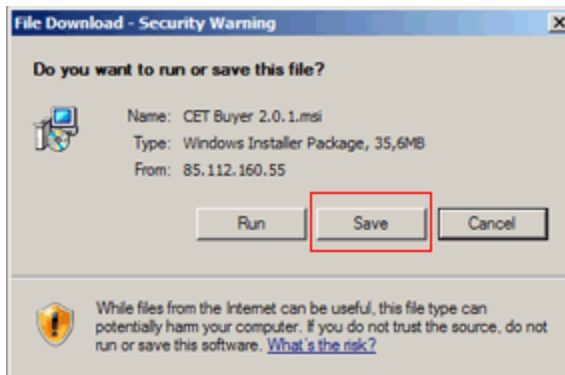

Download CET License Buyer

Click the button 'Download CET License Buyer' to start downloading.

Save the CET License buyer.msi file on your computer's desktop.

By downloading software from Configura CET Extension Center you agree to the terms of our [End User License agreement](#). Please read it before downloading and also review the [system requirements](#) for CET License Buyer.

2

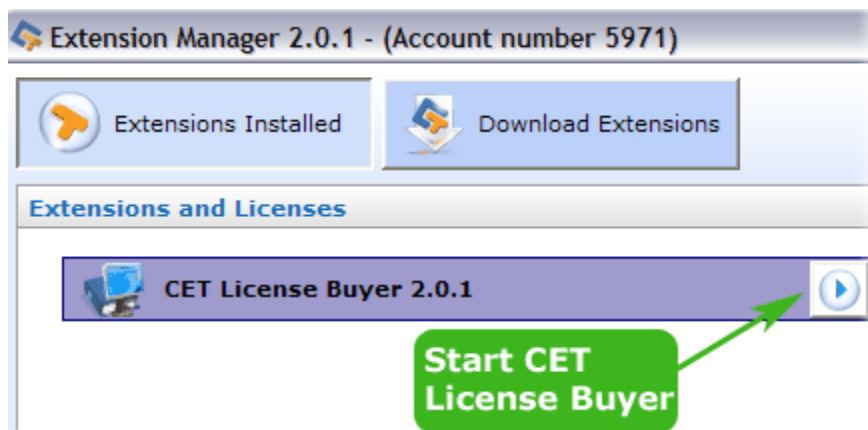

Install CET License Buyer

Run the CET Buyer setup file. A CET Designer Setup wizard will guide you through the installation. When you click Finish in the last step in the installation wizard, another wizard appears, the License information wizard. Read more about the [License information wizard](#) (pdf).

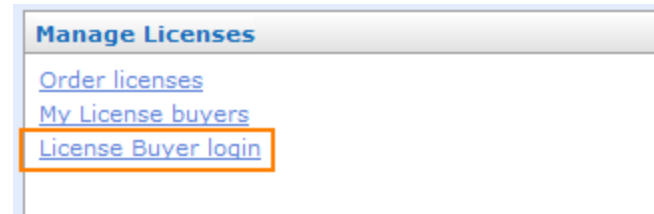

3

CET License Buyer

As a License buyer, you buy and administer licenses from the License Buyer interface. To access the License Buyer interface, click the Start button (see figure below) next to the CET License Buyer in the Extensions Installed section

You can also access the License Buyer interface by clicking the License Buyer login link in the Manage Licenses field down to the right.

4

Run CET License Buyer

Thank you for downloading CET License Buyer. If you need any assistance, please contact our CET Designer [Help Desk](#).
