

# HIFFMAN HQ – NEXT CHAPTER

Kristina Aleksandrova  
Senior Designer

[illegible]

**INDIVIDUAL**

- PRIVATE OFFICE 1, 2, 8-13
- PRIVATE OFFICE 3-7
- WORKSTATIONS

**FOCUS**

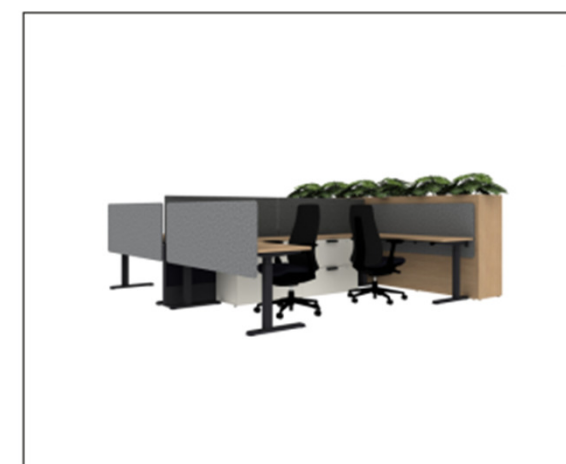

- PHONE ROOM 1
- PHONE ROOM 2, 6, 7
- PHONE ROOM 3
- PHONE ROOM 4
- PHONE BOOTH 5
- PHONE ROOM 8

**COLLABORATION**

- FLEXIBLE CONF. ROOM
- MEDIUM CONF. ROOM 1
- MEDIUM CONF. ROOM 2
- SMALL CONF. ROOM 1
- SMALL CONF. ROOM 2

**AMENITIES**

- RECEPTION
- WORK LOUNGE
- WELLNESS ROOM

This project began as an RFP opportunity that we were ultimately awarded. Following the award, we collaborated closely with the design team through a series of live design meetings to help bring the project vision to fruition. Based on the initial improvement drawings provided by the architectural firm, we developed layouts for new workstations, private offices, and ancillary spaces throughout the facility.

WS-01 PRIVATE OFFICE

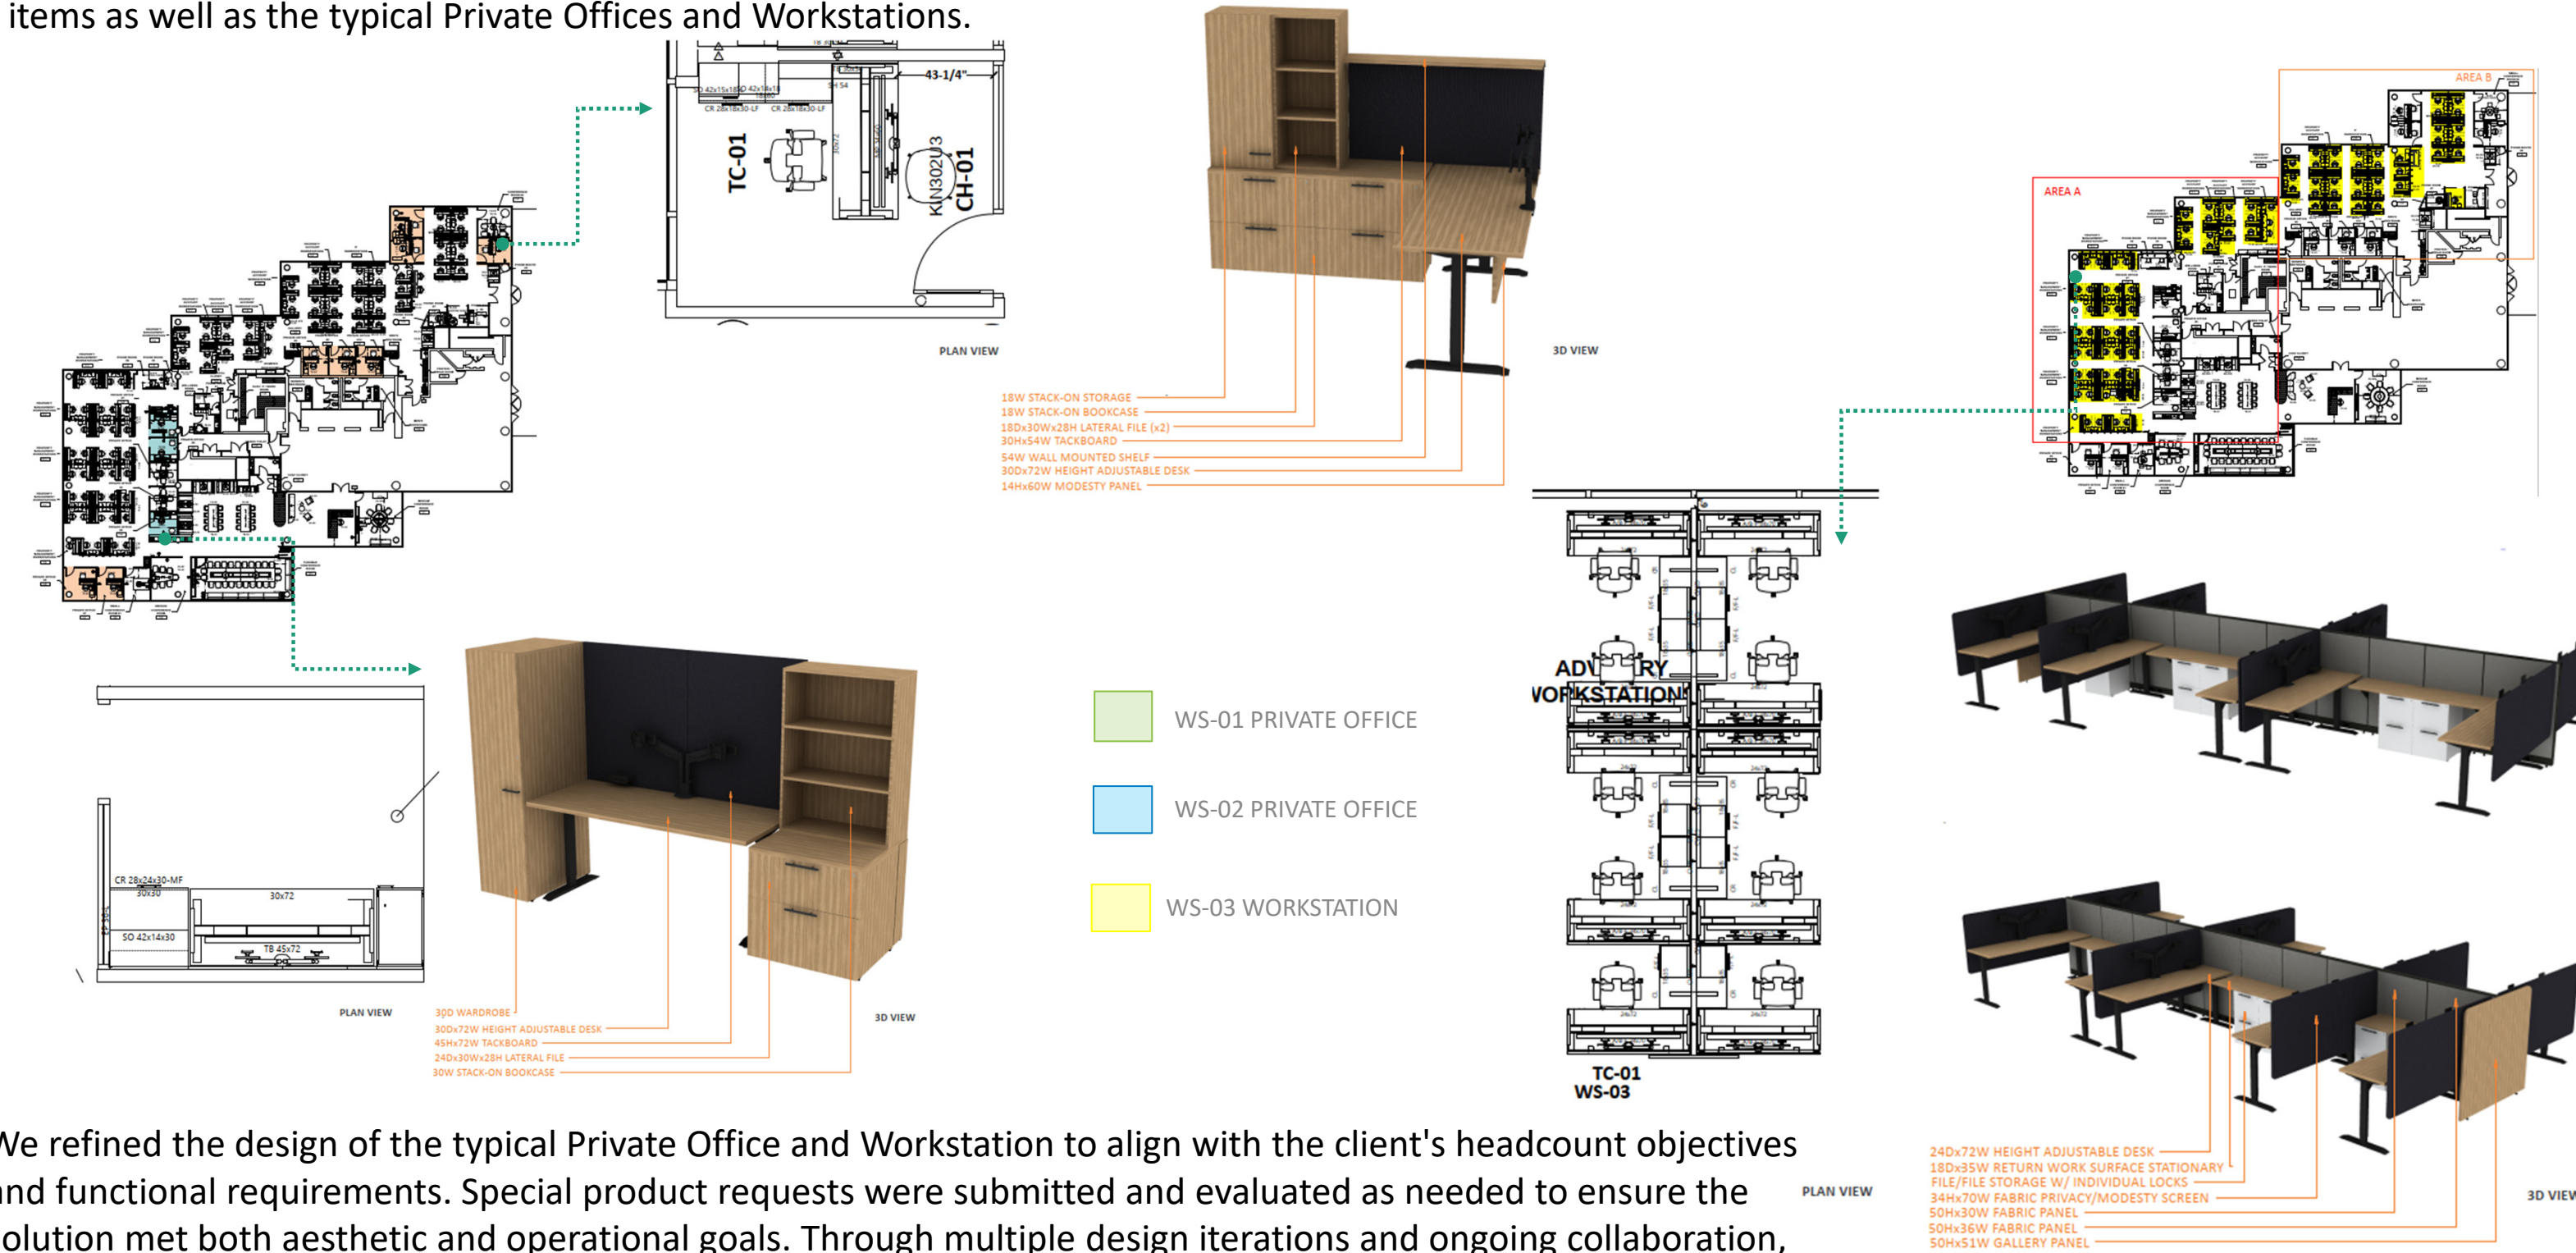

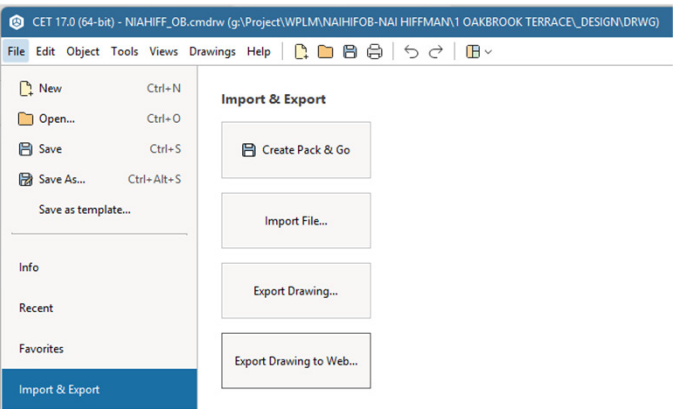

WS-02 PRIVATE OFFICE

WS-03 WORKSTATION

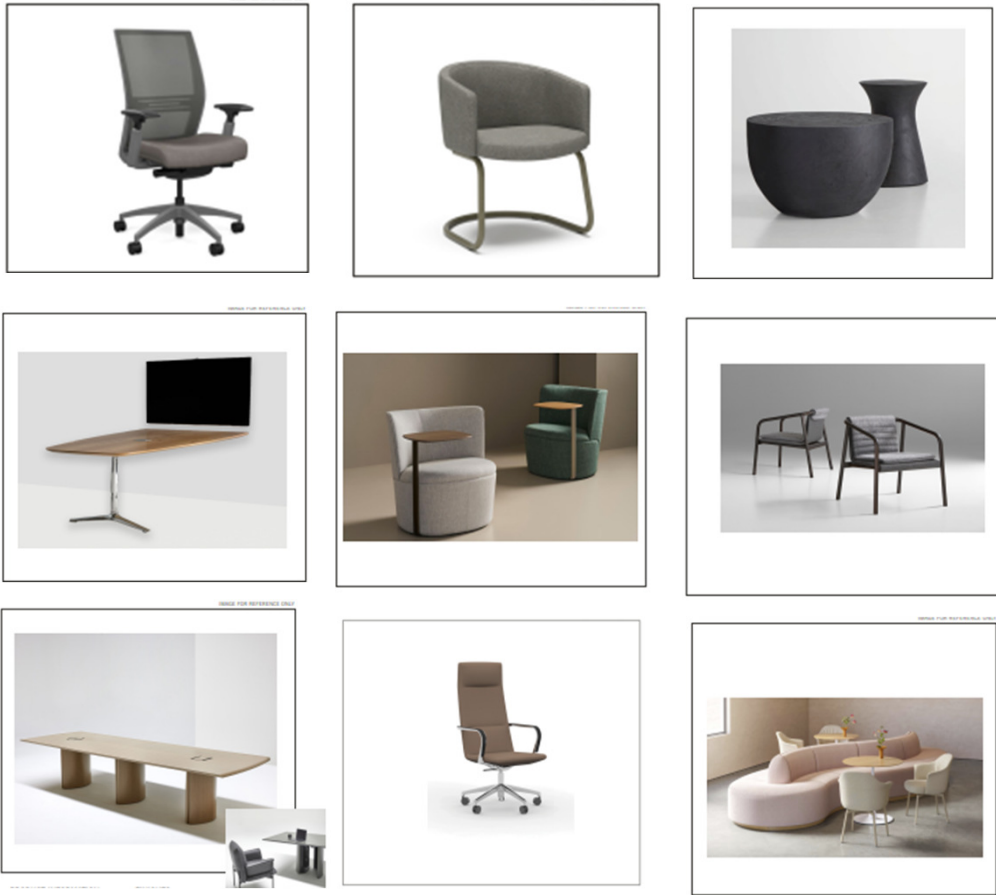

One of the highlights of the project was the final web-based export. Because we incorporated the approved carpet, flooring and finish selections into the design, we were able to provide an interactive visualization link that allowed the client to experience and explore the entire space before implementation, creating a clear and engaging representation of the finished environment including all ancillary items as well as the typical Private Offices and Workstations.

Web Viewer Export Extension for CET

We refined the design of the typical Private Office and Workstation to align with the client's headcount objectives and functional requirements. Special product requests were submitted and evaluated as needed to ensure the solution met both aesthetic and operational goals. Through multiple design iterations and ongoing collaboration, the plan evolved into a highly functional and cohesive workplace environment.

CET Designer continues to help us stand out by enabling us to create impressive, highly visual presentations that consistently wow our clients. The ability to quickly make changes and instantly show them in both 2D and 3D allows for faster decision-making, a more interactive design process, and greater client confidence. These capabilities not only showcase our expertise but also help us win business by delivering a superior client experience on every project.
